

UNIVERSAL METAL DECK SKYLIGHT

A press formed metal base suits most popular forms of metal deck roofing with rib heights of up to 50mm. Rolled shoulder design inhibits leaks and detritus build-up on low pitched roofs common to tradition designs. This eliminates leaking problems and increases the service life of the skylight.

MATERIALS

Standard skylights are constructed with a press formed Zincalume® base and an acrylic dome. Fabricated bases are available (in stainless steel, aluminum, copper and galvanised) to meet individual customer requirements. Domes can also be manufactured from high impact acrylic, in clear, opal or tint finishes.

SECTIONAL DETAILS

FLEXIBLE SHAFT KITS

These fully flashed skylight kits provide everything you need to bring natural light into your living environment and are ideal for the handyman and tradesman alike. Kits are complete with an acrylic dome fixed to a fully flashed metal base, highly reflective uv resistant reinforced flexilight shaft, a white ceiling trim and a diffuser (eggcrate for vented and prismatic for non-vented). Kits are also available in twin shaft configuration

Regent Skylights offer a large range of accessories and spare parts to compliment your natural lighting needs. For advice on selection, refer to the accessories information sheets or consult your local distributor.

SELECTION CHART

SIZE	VENTED MODEL	NON VENTED MODEL	BCA MODEL	LIGHT AREA (m ²)	STAND. VENT (m ²)	BCA VENT (m ²)
500 x 500	UMD500VHIO	UMD500NVHIO	UMD500BCAHIO	0.25	0.08	0.20
500 x 800	UMD5/8VHIO	UMD5/8NVHIO	UMD5/8BCAHIO	0.40	0.11	0.24
