

# STEEL DECK SKYLIGHT (kerb style overflashing)

Steel Deck Skylights are generally used for flat roofs where a hob or kerb has been supplied by the builder, or is intended to be built. They are suitable for kerbs constructed out of steel, concrete or timber. Please refer to the installation guide for differing kerb types.

## MATERIALS

Standard Steel Deck skylights consist of a kerb style fabricated Zinalume® base and an acrylic dome. Special bases are available (in stainless steel, aluminum, copper and galvanised) to meet individual customer requirements. Domes can also be manufactured from high impact acrylic, in clear, opal or tint finishes.

## SECTIONAL DETAILS

## OPTIONAL ACCESSORIES

Regent Skylights offer a large range of accessories and spare parts to compliment your natural lighting needs. For advice on selection, refer to the accessories information sheets or consult your local distributor.
