

COLONIAL ROOF WINDOW - opening

COLONIAL ROOF WINDOW - OPENING

An exciting concept in skylight design, the "Colonial Roof Window" incorporates all the modern features of other Regent Skylights PLUS the elegance and harmony afforded by the low profile, use of tinted laminated safety glass and colour co-ordinated metalware. A skylight which will compliment your home's architectural style.

MATERIALS

Colonial Roof Windows are constructed with a press formed Zinalume® base and Solar Laminated Safety Glass or toughened glass (clear and tinted) depending on size. Non-standard bases are available (in stainless steel, aluminium, copper and galvanised) to meet individual customer requirements (P.O.A.). Special glazing options are also available. For further information, consult your local Regent Distributor for advice and a quote.

AVAILABLE FOR MOST ROOF TYPES

Regent Skylights can be manufactured to suit most roof types. Most standard stock will suit the popular types of roofs such as corrugated iron, tile and metal deck. In situations that non-standard bases are required (ie. when a hob is to be used), special fabricated bases can be made. Units are provided fully flashed requiring no additional plumbing, resulting in a time saving installation.

OPTIONAL ACCESSORIES

Regent Skylights offer a large range of accessories and spare parts to compliment your natural lighting needs. For advice on selection, refer to the accessories information sheets or consult your local distributor.
