

REGENT EASY FIX FLASHING BASES

SUIT VELUX® VS, FS OR VSE SKYLIGHTS

> SKYLIGHT BASES INCORPORATE EXCLUSIVE REGENT PRESS-FORMED FLASHINGS

Models are available to suit all VELUX® FS, VS and VSE skylights. VELUX® Skylights satisfy AS3959 - 2009 requirements up to BAL40. Most sizes can be supplied incorporating Regent's exclusive press-formed Zinalume® flashing systems reducing installation time and reliance on sealants.

> RAISED UNITS FOR LOW PITCHED ROOFS

Bases can be supplied incorporating a Pitch adapter (see figure below) to allow skylights to be installed onto low pitched roofs. Recommended to use on roofs under 15°. The use of skylight bases with the Pitch adapter reduces normal installation time by doing away with the usual on-site fabrication to raise the pitch of the skylight.

> COLOUR MATCHING

Skylight bases can be supplied with a painted finish to suit standard Colorbond® colours. Special colour matches are also available on request.
